

Income from game sales by NLDF/OLDF quarterly and for the OLDF to date

Reporting Period: Quarter 2, 2011/12

Since its launch in November 1994, the National Lottery has raised over £27 billion for good causes that include sports, arts and heritage, as well as health and education and the environment. In addition, National Lottery funding is contributing £2.175 billion towards the costs of staging the London 2012 Olympic and Paralympic Games, of which £750 million will come from designated games (see section 2).

Funds are raised from the sale of National Lottery games, and are supplemented by unclaimed prizes and interest on balances of funds held. The funds for the original good causes are held in the National Lottery Distribution Fund (NLDF), while funds raised from designated games are held in the Olympic Lottery Distribution Fund (OLDF). The Commission makes sure that payments from the National Lottery operator into the NLDF and OLDF are accurate and on time.

1) OLDF and NLDF Raised in Quarter 2, 2011/12¹

OLDF returns in Quarter 2 were almost 20% higher than in the previous quarter due to a significant increase in sales of OLDF-designated scratchcards launched earlier in the year and of Interactive Instant Win Games (IIWGs); the latter partly in response to high levels of web play associated with EuroMillions jackpots which rolled to over £100 million during July and September.

One new scratchcard and thirteen new IIWGs (which are all designated as Olympic Lottery games), were launched during the quarter:

(Scratchcards): *Fast £50*.

¹ These amounts relate to the value of proceeds from game sales received by the NLDF and OLDF between 5 July and 27 September 2011. See separate chart for total OLDF income raised to date.

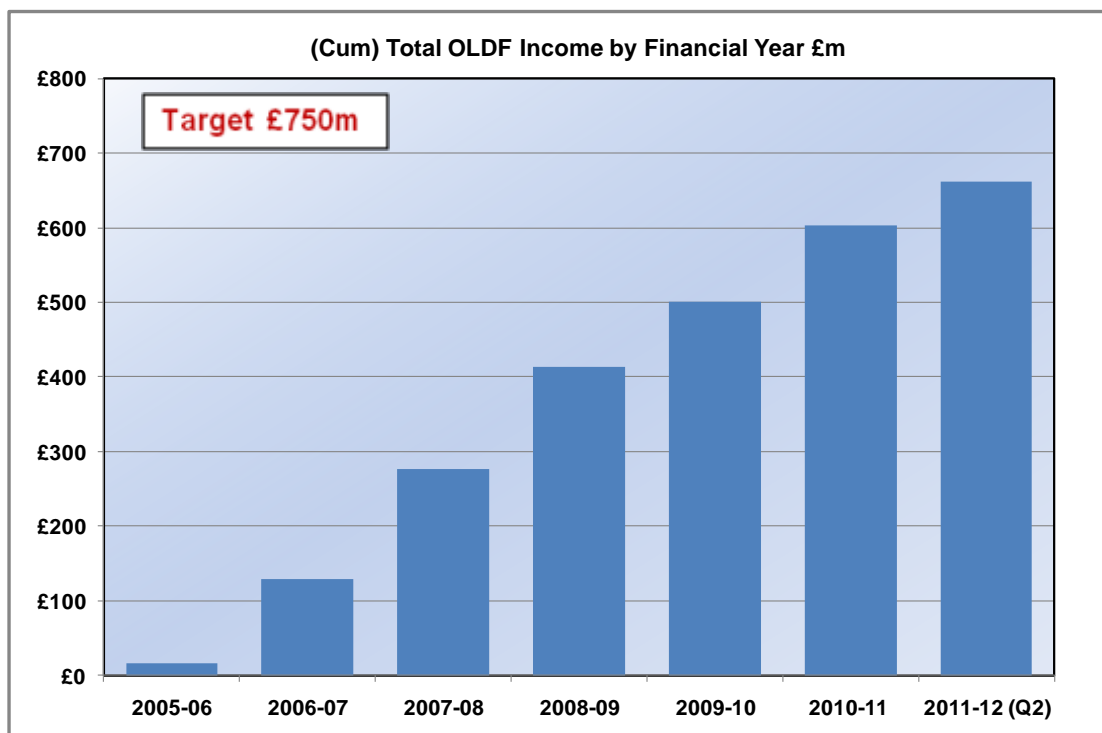

(IIWGs): *Win Gold (Olympic), Money Comb, Fast £50, BINGO, Rolling in it, Scrabble, Lucky for Sum, Robin Hood: Sherwood's Treasure, Hi Lo, £10,000 a Month For a Year (Red), £100,000 Spooky, Monster Money and Money Spider.*

2) Total OLDF Funds Raised To Date

The table below shows cumulative total receipts by the OLDF² as they have built up in each financial year since 2005.

Data includes all other sources of income and adjustments from trading, such as unclaimed prizes, but excludes investment income.

As at 27 September 2011, total OLDF receipts stood at £662.1m. This means that the National Lottery has now achieved almost 90% of its target for funding the London 2012 Olympic and Paralympic Games.

² Including all other income and adjustments from sales, including unclaimed prizes.
